

Property Technician

We are looking to recruit for a Property Technician to deal with commercial properties transactions for our SIPP arrangements. This would involve dealing with all technical aspects of the SIPP property investment from purchase, leasing and through to disposal.

- Instructing solicitors on specific transactions, on behalf of our trustee company. This would typically be a new commercial property purchase, lease or sale.
- Dealing with general technical property enquiries from tenants, solicitors, IFAs, SIPP members and internally. Communications will be via email, letter or telephone.
- Reviewing draft legal documentation, reports on title, search results etc which are produced by the solicitor acting for the SIPP trustee.
- Reviewing property valuation reports and commenting as necessary, to ensure they are suitable to satisfy HMRC requirements.
- Maintaining records on the company's database and document management systems.
- Building good relationships with internal departments and stakeholders.
- Understanding and identifying areas of potential risk.

The applicants must possess a high degree of interpersonal skills and be able to prioritise workloads on a daily basis to accord with the Company's service levels.
