

YOUR FUTURE SIPP

Target Market Document

May 2023

Your future, our focus.

curtisbanks.co.uk

Introduction

This document provides important information on the target market, customer aims, objectives and needs that can be fulfilled by the Your Future SIPP. It is intended for use by advisers and introducers to help you understand whether Your Future SIPP is right for your clients. It is based on Curtis Banks' opinion and does not take into account individual circumstances.

What is Your Future SIPP?

Your Future SIPP is an award winning Self-Invested Personal Pension proposition from Curtis Banks, designed to suit client needs in the modern world of retirement. Rated 5 stars by Defaqto and Moneyfacts in 2022, Your Future SIPP provides you and your clients with the choice of the majority of market investments, platforms, brokers and discretionary managers. It also provides access to our renowned commercial property proposition - across the Curtis Banks Group we own over 8,800 properties on behalf of more than 8,100 clients.

It also includes:

- Fixed fees which are increasingly competitive as your client's pension fund grows.
- A menu-based charging structure so that your clients only pay for the functionality they use, making it flexible and cost effective.
- When your clients are ready to take benefits from their pension they can withdraw tax free cash all at once or take it in stages. Should they choose to, they can set up regular income payments which can be amended or stopped at any time or take single payments as needed.
- Access to a secure portal where you can view information and initiate a number of transactions and money movements.
- Ability to pay adviser fees from the SIPP.

For more information, see our '[At a Glance Your Future SIPP](#)'.

What client needs and objectives does Your Future SIPP aim to meet?

Your Future SIPP is designed to be compatible with the following client needs and objectives:

- To build a pension fund in a tax-efficient and flexible SIPP wrapper over the medium to long-term, primarily for clients that already have a pension fund in excess of £200,000;
- To have access to a wider range of investments than typically available through standard personal pensions, which can also include commercial property on an individual or syndicated basis. See our [Schedule of Allowable Investments](#) for further information;
- To consolidate different pension funds with one provider to benefit from economies of scale and easier administration;
- To benefit from a menu-based and flexible charging structure that adapts as their retirement and investment needs change. See our [Schedule of Fees](#) for further information;
- To have a broad, flexible range of retirement income options including the option to take part of their pension fund as a tax-free cash lump sum when they take their benefits;
- To enable the client or their employer to make regular or one-off tax-relievable contributions;
- To benefit from award-winning service and administration of their pension arrangements;
- To be able to view details of their plan and request changes/initiate instructions online via secure messaging;
- To pass-on wealth to beneficiaries, including potential for provision of an income or lump-sum to their chosen beneficiaries if they die.

Your Future SIPP IS NOT designed to be compatible with the following needs and objectives:

- To start out on a pension savings journey or for clients with small pension funds (less than £50,000);
- To invest only for the short term (less than 12 months) unless there is a specific client objective.
- Clients not willing to accept the risks as stated in our [Key Features](#).
- To achieve preservation of capital, not willing to accept any risk to capital or investing in Cash for the long-term while accumulating a pension fund.
- To be able to access savings before retirement (before age 55 for most clients, rising to 57 from April 2028).
- To utilise investments outside of our [Schedule of Allowable Investments](#).
- To invest in a Self-Invested Personal Pension without advice and with little to no pension/investment knowledge or experience.
- Clients that require a guaranteed income for life at retirement.
- To follow a simple investment strategy over the long-term, for example by using one or a small number of 'in-house' funds where a low-cost pension may be more suitable.
- A pension with a 'fund-based' or 'percentage/basis point (bps)' charging structure.
- Clients with no current, historic or future exposure to UK taxation or have not and will not qualify for UK tax relief on pension contributions.
- To allow their employer to use as a workplace pension arrangement or to use instead of a workplace scheme with preferential terms (such as employer matching) that would outweigh the benefits of Your Future SIPP.
- To accommodate insistent defined benefit scheme transfers against adviser recommendations.
- To invest using the FCA's Investment Pathways.

What client characteristics is Your Future SIPP designed to be compatible with?

In addition to the needs and objectives Your Future SIPP is designed to meet, we can also define the client characteristics it's compatible with. As this can be a more subjective part of your advice process we've broken down client characteristics into three main categories:

- Target market - This is the core group of clients that the product has been designed for.
- Potential suitability - This is a wider group of clients the product may still be suitable for, but is not our core target market.
- Not suitable for - Clients exhibiting one or more of the characteristics stated here are unlikely to be suitable for this product.

Client characteristics	Target market	Potential suitability	Not suitable for
Age	30-75.	Any.	N/A.

Our target market range starts at 30 to allow a sufficient pension fund accumulation to make the product's charging structure and wide range of features and benefits more attractive. See Pension Fund Size for more information.

Pension knowledge and experience	Any level of pension knowledge and experience with a financial adviser.	Intermediate to advanced pension knowledge and experience with or without a financial adviser.	Basic or lower pension knowledge without a financial adviser.
---	---	--	---

SIPPs can be complex arrangements, especially when ensuring the right decisions are made at the right time to maximise benefits. We recommend taking financial advice but believe that confident, knowledgeable, unadvised clients should not be prevented from following their financial objectives.

Investment knowledge and experience	Any level of knowledge and experience with a DFM / Investment Manager / other adviser providing investment advice.	Intermediate to advanced investment knowledge and experience with or without a DFM / Investment Manager / other adviser providing investment advice.	Basic or lower knowledge without a DFM / Investment Manager / other adviser providing investment advice.
--	--	--	--

Your Future SIPP provides access to a wide range of investments from simple to complex. We recommend taking investment advice but believe that confident, knowledgeable, unadvised investors should not be prevented from following their financial objectives. Please note that specialist investments will be restricted without professional advice unless an acceptable declaration is made.

Pension Fund Size	£200,000 or more.	Between £50,000 and £200,000.	Less than £50,000.
--------------------------	-------------------	-------------------------------	--------------------

Due to its fixed-fee charging structure, Your Future SIPP becomes comparatively better value for money the more your clients invest.

Length of investment	Long term - 5 years, ideally longer.	Medium term (1 to 5 years) if there is a specific client objective.	To invest for the short term (less than 12 months) unless there is a specific client objective.
-----------------------------	--------------------------------------	---	---

We recommend that investments are made at least for the medium to long term - that is at least five years and ideally longer. Shorter timescales may be appropriate in certain circumstances but less than 12 months is unlikely to be.

Client characteristics	Target market	Potential suitability	Not suitable for
Attitude to/capacity for risk	All except no appetite for risk.	All except no appetite for risk.	No appetite for risk and/or investing for capital preservation only.
<p>The wide range of investments on offer mean that all attitudes and capacities for risk could be met except for zero risk or preservation of capital. Although capital preservation investment options may be available, it is likely that the combination of product, investment and advice charges will lead to some capital erosion.</p>			
Tax status	Relevant UK individuals with current or historic UK relevant earnings.	Clients with historic and/or expected future UK relevant earnings.	Clients with no current, historic or expected future UK relevant earnings.
<p>Clients with UK relevant earnings are more likely to benefit from investing in a pension.</p>			
Income / wealth	UHNW, HNW, affluent.	Mass affluent, subject to information in 'Pension Fund Size' characteristic.	Insufficient income to accumulate a pension fund in excess of information in the 'Pension Fund Size' characteristic.
<p>Our target market includes those customers likely to have £200,000 or more to invest in their SIPP. Other customer segments may be suitable providing they meet the minimum investment requirements.</p>			
Access to savings	At least age 55 (57 from April 2028) with speed of access dependent on liquidity of investments.	At least age 55 (57 from April 2028) with speed of access dependent on liquidity of investments.	Requires access to savings before taking retirement benefits.
<p>Generally, clients must reach the Normal Minimum Pension Age (NMPA) before they can access their benefits. It may take time to realise the value of certain underlying assets, such as investments that contain property.</p>			
Country of residence	UK residents.	Non-UK Residents except those resident in, or a national of, HM Treasury defined high risk jurisdictions.	Residents or nationals of HM Treasury defined high risk jurisdictions.
<p>Our products are primarily designed for UK residents subject to UK taxation. The SIPP may be suitable for non-UK residents but please see the 'Overseas Residents' section below for further information.</p>			
Client categorisation	Retail clients.	Retail clients.	Professional Clients or Eligible counterparties.
<p>Our products are designed for Retail Clients as defined by the FCA. Professional Clients and Eligible Counterparties are not able to invest in a pension. Pension, financial services or investment professionals acting in an individual capacity for their own pension will be treated as Retail clients.</p>			

SIPP complexity and advice

The flexibility and range of investment options offered by Your Future SIPP can make it a complex proposition for clients to ensure they get the most from it. We recommend that clients use the services of a professional, FCA-regulated financial adviser and Discretionary Fund Manager (DFM) or investment adviser. If not using professional advice services, clients should have the knowledge and expertise necessary to make informed decisions using the information we provide. We're happy to answer client questions but are not able to provide advice.

For non-advised or execution-only applications we will restrict access to certain investments unless there is a DFM in place or the investor has signed (and we have verified via our Product and Client Committee) a sophisticated investor declaration. Specialist investments (for example unregulated collective investment schemes and unlisted shares) go through an enhanced due diligence process with approval from our Investment Committee. Please see our [Schedule of Allowable Investments](#) for more details on specialist investments.

All transfers-in from defined benefit schemes must have received positive advice from, and be submitted by, an FCA regulated financial adviser who holds the appropriate permissions.

Overseas residents and US nationals

While Your Future SIPP is designed primarily for UK residents, there may be circumstances when it will be appropriate for non-UK residents or US nationals resident in the UK. We can accept:

- UK nationals living outside the UK (including the US but excluding HM Treasury defined high risk jurisdictions).
- US nationals living in the UK.
- In all circumstances the plan must be advised and the adviser must be UK based, regulated by the FCA with necessary permissions and have advised on any transfers into the plan.
- Contributions can only be made if the client is resident within the UK and transfers can only be accepted from UK pension schemes.
- Any necessary reporting must be handled by the client's accountant, adviser or investment manager.

Applications for overseas resident customers or US nationals living in the UK must be made by paper and accompanied by an additional [Overseas Client Declaration](#).

Your Future SIPP, Curtis Banks Group and our part in the distribution and value chain

The Curtis Banks Group provides SIPP administration along with associated property legal services. We don't offer financial or investment advice or manufacture our own funds for use by clients in their SIPP.

We're responsible for ensuring that Your Future SIPP represents fair value to clients on an ongoing basis. This extends to consideration of services associated with property administration such as block insurance policies, valuation and legal services where those services are a legislative, regulatory or risk management requirement to protect both clients and Curtis Banks.

We are not responsible for charge levels or the determination of fair value regarding charges for products or services not selected by Curtis Banks. For example, we are not responsible for charges relating to:

- Financial advice, although we do apply decency limits to advice charges facilitated by the SIPP.
- Investment advice.
- Any other product or service in relation to a SIPP that is not selected by Curtis Banks.

How is Your Future SIPP distributed?

Your Future SIPP is primarily distributed via Independent Financial Advisers and also by some Restricted Advisers that have clients within our target market. We also accept applications from some DFM/investment manager firms on an introducer basis. Clients can invest in Your Future SIPP in three ways:

- Through an FCA regulated adviser on an advised basis;
- Through an FCA regulated adviser on an execution-only basis;
- Through a DFM partner/Investment Partner as introducer, once we have approved them to submit applications on this basis.

We do not accept applications direct from clients - they must be submitted by an FCA regulated adviser or approved DFM/Investment Partner introducer.

Where applications are submitted without initial and/or ongoing financial or investment advice, we still request that the submitting firm review the information contained in this document and do not submit or assist in applications for clients that are unsuitable for this product.

Vulnerable customers

We have both a moral and regulatory duty to ensure that vulnerable customers are identified and treated fairly, according to their needs and experience outcomes as good as those for all other customers. We understand the importance of recognising and responding to vulnerability and the varied needs of vulnerable customers. To that end, we have a Corporate Vulnerable Customer Policy in place and staff have received and continue to receive ongoing training and support in recognising, dealing with and accommodating the needs of vulnerable customers.

The FCA has identified four key drivers which may increase vulnerability, these are:

- Health.
- Life Event.
- Financial Resilience.
- Capability.

To aid us in identifying and accommodating any additional support or tailored requirements that our customers may require it would be beneficial to receive the following:

- Advisers or customers to notify at time of new business application of any adaptations required to support the customer.
- Advisers or customers to update us through the lifecycle of the plan of any new vulnerable characteristics identified or any that can be removed.

Examples of adaptations that can be made for customers with vulnerable characteristics, please note this list is not exhaustive:

- Black and white literature.
- Alternative size and style of font.
- Audio file of literature.
- Braille literature.
- All communications via telephone.
- Following up calls with summary emails or secure messages.
- Calls with the customer and a supportive third party.

Reviewing clients against our target market

We review SIPP new business on a regular basis to assess whether the product has been distributed in accordance with the information in this target market document. However, in line with FCA guidance, it remains the responsibility of each distributor to ensure that this target market is followed as they are best placed to consider client personal circumstances, needs, objectives, characteristics and suitability.

If we have concerns about plans distributed to clients that we believe are unsuitable, we will first contact the distributor to raise and discuss our concerns. We will not take further action until this discussion has taken place unless we feel there is significant potential for poor customer outcomes by delaying action.

Product & Service Assessment

A Product & Service Assessment was completed in April 2023, reviewing the product against the relevant Consumer Duty rules contained in PRIN 2A.3, the Products & Services outcome rules. The assessment covered the following areas from a product design perspective:

- Target market and distribution strategy.
- Meeting the needs, characteristics and objectives of the target market.
- Risks of the product to the target market and vulnerable customers.
- Vulnerable customers.
- Avoiding adverse effects on groups of customers.
- Vested rights / terms and conditions review.
- Product testing.
- The Cross-Cutting Rules.
- Avoiding foreseeable harm and risk mitigation.

No significant issues were found on completion of this assessment although a number of areas of improvement were identified which have been assigned actions for completion by the end of July 2023.

Price & Value Assessment

A Price & Value Assessment was completed in April 2023, reviewing the product against the relevant Consumer Duty rules contained in PRIN 2A.4, the Price & Value outcome rules. The assessment measured the total customer benefits provided by the product against the total costs to the customer in the following areas:

Customer benefit metrics	Customer Cost/Charge metrics
Product features & benefits.	Curtis Banks' costs vs fees charged to customers.
Quality of servicing.	Market rate & charges for comparable products.
Quality of scheme & investment governance.	Customer groups & vulnerability.
Distribution arrangements.	Non-financial costs.

Final ratings for both sets of metrics were then adjusted according to any significant findings, positive or negative, related to the cross-cutting rules to come to an overall conclusion on whether the product provides fair value to customers in its target market.

Our final conclusion was that the product represents fair value to customers in the target market. One residual action was taken to review the application of an individual charge which has been assigned a completion date of end of July 2023.

Contacting Us and Accessing Our Services

If you'd like to speak to us about anything on this target market document, please contact your Business Development Manager. Contact details of which can be found [here](#). Alternatively, please contact us on:

T 01473 296 950

We may record and monitor calls. Call charges will vary.

Email: enquiries@curtisbanks.co.uk

Please remember not to send any personal, financial or banking information via email as it is not a secure method of communication.

The value of pension funds may fall as well as rise. Client's money is tied up until they take their benefits. Benefits can generally be taken any time after age 55 although this is due to increase to 57 in 2028.

The tax treatment and tax benefits of a SIPP outlined in this document are based on our understanding of current tax law at April 2023, and draft legislation that can change. Tax treatment depends on a client's individual circumstances and may be subject to change in the future.

Should your client experience difficulties accessing any of our services due to personal circumstances, we may be able to make some adjustments to help them. Please contact our SIPP Support Team on 01473 296 969 or sippsupportteam@curtisbanks.co.uk to discuss any support adjustments that may be available.
